

Pasting Machines & Drying Oven

Now Manufactured in India by Shingania Services - Pune under License Agreement with Accurate products - Denmark DK - 2610

Accurate Products - Denmark are very well known since 1950 for battery manufacturing equipments.

Shingania Services are also manufacturer of equipments for battery industry since last two decades.

The Two Companies have agreed to exchange knowledge for manufacturing the best suited pasting machines for medium / large plants.

The similar machine manufactured by Accurate Product - Denmark are working satisfactorily in various countries such as Sweden, Denmark, Algeria, Indonesia, Pakistan, Zambia, Trinidad, Mauritanian, Bangladesh etc.

Adjustments for all current SLI grid dimensions.

Capacity upto 120 panels / minute

Two separate, geared drive stations: one for the belt drive, one for the hopper.

Trowel roller, hard chormed and ground for precision control of pasting thickness.

Over-pasting Facility.

All main bearings are heavy duty, largely dimensioned roller bearings.

Complete electric control panel.

VFD Controlled Multi speed drive, one for belt & one for pick-up..

Easy access to hopper by motorized tilting.

Drying Oven, Model Vertical

Built to fit the SS - Paster, model I

For surface drying (flash drying) of pasted plates.

Independent machine with variable speed drive.

The plates are suspended in vertical position, hanging between two conveyor chains.

Convection drying by hot air.

Automatic temperature control.

Complete control panel with motor protection.

Electric or gas heating.

Drying Tunnel, Model Horizontal

Same basic specifications as for the vertical model.

Flat wire, steel Conveyor belt for horizontal transport of plates, suitable for thin plates.

Infrared heat section.

Extended machine length.
